

Join us on Saturday, August 11, 2018 for a tour of the Honor Defense Company in Gainesville.

The Honor Defense Company uses all American-made products and components to make the Honor Guard, a 9mm single stack concealed-carry hand gun which is assembled by veterans.

### Our Visit

We will meet Saturday. morning at the QT on Sandy Plains Rd. just off Canton Rd. (Directions: [HERE](#). Come early; we will leave at 8:00 am sharp.

We will travel up 400 to Browns Bridge Rd. and take it towards Gainesville and to the Honor Defense facility. Gary Ramey, the owner of the company, has agreed to give a small group of us a tour of the facility. After the tour we will get something to eat, I have a place in mind but am open for suggestions.

I plan to return to the Marietta area by way of a different route instead of 400 (back roads of course). We can only do a small group so the **first 12 people to sign-up** will get to go.

If there are any questions you can contact me via email or phone or see me at the July monthly meeting.

Thanks,

Keith Cearns
